Exciting developments from Tokyo!

During a special courtesy visit to the Japan Parliament Office Building, invited by Japan Diet Member Mr. Koichi Seto, our Vice Chancellor of LNBTI had a fruitful discussion about enhancing collaboration in IT education. Mr. Seto expressed great interest in LNBTI's education model, which aligns well with Japanese university standards. This meeting also highlighted the pressing demand for IT engineers in Japan—a gap LNBTI is preparing our students to fill. Mr. Seto is enthusiastic about supporting LNBTI's unique approach to education, aiming to bridge the connection between our students and Japanese IT industries.

This morning, we embraced mindfulness!

On May 29th, from 8:00-9:00 AM at the Main Campus, our session was led by Ven. Homagama Kusala Dhamma Thero from Mithirigala Nissarana Aranya Senasanaya. Together, we focused on the present moment—a truly wonderful experience for our LNBTI students.

LNBTI Vesak Celebrations, organized by the Student Activity Club (SAC)

Expanding Horizons: Celebrating Academic Partnership Growth in Sri Lanka

We celebrated an exciting milestone on May 17, 2024, by expanding our academic partnerships to empower Sri Lanka's youth with better educational opportunities.

Japanese Delegation Visits LNBTI, Explores Future Collaboration Opportunities

The afternoon at our Main Campus was marked by engaging sessions, initiated by a visit from the Japanese delegation. This visit by the delegation to LNBTI followed several discussion sessions led by Professor Ananda Kumara during his recent trip to Japan. Prior to arriving at LNBTI, the delegation visited the MetaTechno Inc. Head Office in Japan, where they met with Mr. Ikura Kazuyuki, Director, and Mr. Koga Michio, Chairman

of LNBTI. During their interactions with our students, the delegation was pleased to note that LNBTI students have developed strong Japanese language skills and a solid understanding of IT. The delegation expressed their eagerness to continue formal discussions with LNBTI, exploring potential opportunities for recruiting our students after they complete their academic programs.

Celebrating Success: Mr. Ravindu Sankha Ranepura's Journey from First Student to Accomplished Graduate

From our first student to our newest graduate-welcome back to LNBTI, Mr. Ravindu Sankha Ranepura! Your journey is a testament to the boundless opportunities that await our students. Congratulations on your remarkable achievements!

Expanding Our Facilities

We are thrilled to announce the expansion of our LNBTI City Campus in Central Maharagama! Our new facilities include:

- New Lecture Theaters: Increased seating capacity
- Student Common Area: Comfortable seating for 80 students
- Advanced Server Room: Equipped with high-speed fiber connection
- Daily Data Allowance: 5GB per student to enhance your learning experience

3 months Internship in Japan from JASA for Sri Lankan Students

For the last 4 year LNBTI coordinated with Ministry of Economy, Trade and Industry (METI, Japan), The Association for Overseas Technical Cooperation (AOTS, Japan) and Japan Embedded Systems Technology Association (JASA, Japan) in providing training programmes to Sri Lankan students. Last year 8 such Sri Lankan students were selected for 3-months internships in Japan after successfully completing the program.

Most of them got permanent jobs after completing the internships in the respective companies. This year, programme is conducted for the students of LNBTI as well as for Kelaniya university. LNBTI plans to open up more and more opportunities in the job market for our students through these kinds of activities and expects students will get the maximum benefits out of them to secure their places in Japanese IT industry.
