Empowering Future Innovators Through Industry-Focused Learning

LNBTI proudly congratulates the students who successfully completed Phase One of the Infernox 1.0 program, representing several leading schools across Sri Lanka.

To recognize their dedication, commitment, and active participation, completion letters were awarded to the students who successfully completed the first phase of the program. This achievement marks an important milestone in their journey towards developing valuable knowledge, practical skills, and a passion for innovation.

Through initiatives such as Infernox 1.0, LNBTI continues to extend its expertise beyond the institution by engaging with schools and the wider community, creating meaningful opportunities for young learners to explore emerging technologies and future career pathways. These outreach programs reflect LNBTI's commitment to fostering innovation, strengthening educational partnerships, and contributing to the development of a skilled and future-ready generation.

We commend all participants for their accomplishments and look forward to supporting them as they progress to the next phase of the program. Their success serves as a testament to the impact of collaborative learning and LNBTI's dedication to empowering future leaders and innovators.

LNBTI Welcomes Delegation from WAOJE

LNBTI was honoured to welcome more than 30 members of the World Association of Overseas Japanese Entrepreneurs (WAOJE) to our campus, marking an important opportunity to strengthen international engagement and educational collaboration between Sri Lanka and Japan.

During the visit, the delegation was introduced to LNBTI's academic programmes and key initiatives, participated in an interactive Q&A session with students, and toured the campus facilities. The visit provided our guests with valuable insights into LNBTI's unique establishment through the collaboration between Metatechno Inc. of Japan and hSenid, a leading Sri Lankan IT company.

The delegation expressed particular interest in LNBTI's IT degree programmes, which are designed to equip students with industry-relevant knowledge and prepare them for career opportunities in the Japanese IT sector. The interaction also enabled students to engage directly with experienced Japanese professionals and entrepreneurs, gaining valuable exposure to global perspectives and career pathways.

This visit highlights LNBTI's commitment to fostering international partnerships, creating global learning opportunities for students, and strengthening industry-academia collaboration. We sincerely thank the members of WAOJE for their visit and look forward to building stronger connections that will further enrich the educational experiences and career prospects of our students.

Industry Preparation Session Equips Students for Global Career Success

LNBTI successfully conducted an Industry Preparation Session at the Main Campus, providing students with valuable insights into industry expectations, career readiness, and professional development.

The session was facilitated by Mr. Thajudeen Girsy, who shared his expertise and practical guidance on preparing for the modern workplace, developing professional competencies, and building successful career pathways. The interactive session enabled students to gain a deeper understanding of industry demands and the skills required to thrive in a competitive global environment.

As an institution committed to producing industry-ready graduates, LNBTI regularly organizes career development initiatives that bridge the gap between academia and industry. These sessions play a vital role in equipping students with the knowledge, confidence, and professional mindset necessary to pursue rewarding careers, including opportunities in the Japanese IT industry.

The Industry Preparation Session reflects LNBTI's ongoing commitment to holistic student development and its mission of empowering learners to become globally competent professionals. Through such initiatives, LNBTI continues to support students in taking meaningful steps toward achieving their career aspirations and realising their Japanese dream.

The Vice Chancellor's Message

Prof. Ananda Kumara
President/Vice Chancellor, LNBTI
Director General, Japan Association for Global
Competence Education (JAGCE)

During my recent visit to Japan, I had the valuable opportunity to meet seven LNBTI graduates and students who are now pursuing academic and professional opportunities there.

I met five LNBTI graduates currently working in IT companies, two in Kanagawa Prefecture and three in Kyoto, as well as two students completing IT-related internships through Aoyama Gakuin University. It was truly encouraging to hear their updates on work, training, internships, and daily life in Japan.

The five graduates who joined Japanese companies in April 2026 are currently undergoing mandatory in-company training. They are employed under the same conditions and salary standards as Japanese university graduates, which is a proud achievement for LNBTI and a strong reflection of the quality and relevance of our education model.

I was also pleased to see our graduates and internship students actively building connections with Japanese company representatives and adapting well to the Japanese professional environment. Meeting them on Sundays and weekday evenings, according to their work schedules, gave me the opportunity to share meals and have meaningful conversations about their experiences, challenges, future plans, and life in Japan.

Their confidence, discipline, and determination clearly demonstrate the education, training, and values they received at LNBTI. The fact that some of them have already begun career paths that may lead to long-term employment in Japan is a powerful example for our current and future students.

This visit once again confirmed that LNBTI's vision of "studying in Sri Lanka and building a professional IT career in Japan" is becoming a reality. We will continue to strengthen our academic programmes, Japanese language education, career guidance, internships, and industry collaborations to support more students in becoming globally competent IT professionals.

Creating Future Career Pathways with Japanese Industry Leaders

LNBTI Japanese IT University was honoured to welcome the President, Vice President, and HR Department Manager of Kohoku Lanka (Pvt) Ltd., the Sri Lankan office of Kohoku Kogyo Co., Ltd., Japan, for a constructive discussion on future internship and employment opportunities for LNBTI students.

Kohoku Kogyo is a renowned Japanese manufacturing company specializing in advanced electronic and optical technologies that support communication networks, automotive industries, industrial equipment, AI servers, and global fiber-optic infrastructure. The visit provided an excellent opportunity to explore potential collaborations and strengthen industry-academia linkages.

The meeting was attended by Professor Ananda Kumara, Vice Chancellor of LNBTI, together with Sadoi Sensei, Head of the Department of Japanese Language, Tsutsumi Sensei, and Kobayashi Sensei. Discussions centred on the unique strengths of LNBTI students, including their IT competencies, Japanese language proficiency, discipline, and understanding of Japanese work culture, which position them as valuable contributors to Japanese-related industries.

This engagement marks another significant milestone in LNBTI's efforts to build strong partnerships with industry leaders and create meaningful career pathways for students. By fostering collaborations with globally connected Japanese companies, LNBTI continues to enhance graduate employability, provide international career opportunities, and fulfil its mission of developing highly skilled professionals ready to contribute to the global workforce.

Advancing Research Excellence: Publication of JASPER Research Journal Vol. 1 Issues 1 & 2

LNBTI is pleased to announce the official publication of the JASPER Research Journal – Volume 1, Issue 1 and Volume 1, Issue 2, marking a significant milestone in the continued development of the research culture at Lanka Nippon BizTech Institute (LNBTI).

As the first research journal of LNBTI, the JASPER Research Journal provides a dedicated platform to showcase scholarly contributions, promote academic excellence, and strengthen Japan-Sri Lanka research collaboration. The journal reflects LNBTI's commitment to fostering a strong research ecosystem that supports innovation, knowledge creation, and academic engagement.

Both published issues feature full research papers developed from abstracts submitted for the JASPER First Research Symposium 2025, where authors were invited to extend their initial work into complete research articles for formal journal publication.

Access the journal issues here:

Volume 1, Issue 1 – <https://lnkd.in/gpc4ePqR>

Volume 1, Issue 2 – <https://lnkd.in/gRMtyHPw>

LNBTI extends its sincere appreciation to the Editorial Committee, authors, reviewers, academic staff, and all contributors whose dedication and scholarly commitment made these publications possible.

Poson Bathi Gee Saraniya Brings the Spirit of Poson to LNBTI

The LNBTI Aesthetic Club successfully organized the "Poson Bathi Gee Saraniya" on 26th June 2026 at NLR 7, 4th Floor, bringing together students and staff for an evening of devotional songs and cultural reflection in celebration of the Poson season.

The event, which was entirely organized by LNBTI students, showcased their creativity, teamwork, and appreciation for Sri Lanka's rich cultural and religious heritage. Through the soulful rendition of Bathi Gee, participants experienced an atmosphere of peace, unity, and spiritual reflection, commemorating the significance of Poson.

The presence and encouragement of the academic and administrative staff greatly contributed to the success of the event, inspiring the students and highlighting the strong sense of community within LNBTI.

The Poson Bathi Gee Saraniya was a memorable celebration that promoted cultural values, student engagement, and togetherness, making it a meaningful addition to the institute's annual calendar of activities.
