Welcome, Freshers – Your Journey to Japan Begins Here!

LNBTI Japanese IT University warmly welcomed its newest cohort of students at the Inauguration Programme for the August 2026 Intake, marking the beginning of an exciting new chapter in their academic and professional journeys.

The inauguration brought together new students, academic staff, and members of the LNBTI community to celebrate the start of their university life. The programme provided students with an opportunity to learn more about the institution, their academic programmes, and the opportunities available to them as they prepare for future careers in the Japanese IT industry.

As they embark on this journey, students will have the opportunity to develop their knowledge and technical competencies while gaining valuable exposure to Japanese language, culture, technology, and professional practices. The journey ahead promises opportunities for learning, innovation, personal growth, and career development, helping students build the skills and confidence needed to pursue their aspirations in the global IT sector.

The LNBTI community extends its warmest wishes to the August 2026 Intake and looks forward to supporting them throughout their university journey. May this new chapter be filled with meaningful experiences, new friendships, continuous learning, and exciting opportunities as they take their first steps towards a future connected to Japan.

Congratulations to Our LNBTI Students on Their Career Milestone!

LLNBTI Japanese IT University proudly celebrated another significant achievement as a group of its students received job offer letters from hSenid Japan, marking an important step towards their professional careers in the international IT industry.

The offer letters were officially presented by Mr. Dinesh Saparamadu, CEO of hSenid Group, in the presence of Mr. Saman Kumara, Group Finance Director, and Mr. Danasiri Wijedasa, General Manager. The occasion marked a proud moment for the students as they prepare to embark on their professional journeys in Japan.

Addressing the students, Mr. Saparamadu encouraged them to become AI-native IT professionals, highlighting the importance of embracing artificial intelligence, continuously strengthening their technical capabilities, and remaining adaptable in an increasingly technology-driven global industry. His message underscored the need for young IT professionals to continuously learn and evolve in response to emerging technologies and changing industry demands.

LNBTI extends its sincere appreciation to hSenid Group for its continued support and commitment to creating valuable international career opportunities for LNBTI students. Such industry partnerships play an important role in connecting academic learning with real-world professional opportunities and empowering students to pursue careers on the global stage.

We extend our warmest congratulations to all the students who received job offers and wish them every success as they begin their professional careers in Japan. May this achievement be the beginning of a rewarding and successful journey ahead!

Welcoming INGO ICS as a Collaborator for JASPER Research Symposium 2026

LNBTI is pleased to welcome INGO ICS as a Collaborator of the JASPER Research Symposium 2026.

The collaboration was initiated during the visit of Mr. Tatsuhiro Uchida, President of INGO ICS, to LNBTI and marks an important step towards strengthening international academic engagement and fostering knowledge exchange and research collaboration between Japan and Sri Lanka.

LNBTI sincerely appreciates the support and cooperation extended by INGO ICS and looks forward to a successful and impactful collaboration in advancing the objectives of JASPER Research Symposium 2026.

From LNBTI to Higher Studies and a Professional Career in Japan

LLNBTI Japanese IT University was pleased to welcome back Ms. Harshani Cooray, an alumna of LNBTI, during her recent visit to Sri Lanka.

Following the completion of her Higher Diploma programme at LNBTI, Ms. Cooray pursued her higher studies at the University of Aizu, Japan, where she successfully completed her Master's degree. She is currently serving as a Business Systems Engineer – IFS Cloud at NS Computers.

During her visit, Ms. Cooray engaged with LNBTI students and shared valuable insights into her academic journey, experiences of studying in Japan, and professional career. The interactive session provided students with an opportunity to learn from her experiences and seek practical guidance on higher education and career opportunities.

Her journey from LNBTI to postgraduate studies and professional life in Japan serves as an inspiring example for aspiring graduates. LNBTI sincerely thanks Ms. Harshani Cooray for returning to her alma mater and sharing her knowledge and experience with the next generation of students.

The Vice Chancellor's Message

Prof. Ananda Kumara
President/Vice Chancellor, LNBTI
Director General, Japan Association for Global
Competence Education (JAGCE)

A New Era at LNBTI: From Dream to Reality

Dear Students, Parents, Staff, and Well-Wishers,

LNBTI was established with a clear vision: “Study in Sri Lanka and Work in Japan as an IT Professional.” Today, this vision is steadily becoming a reality through our academic programmes, Japanese language training, professional development activities, and strong links with Japan.

To achieve this goal, students must prepare themselves with commitment, discipline, and determination. A successful career in Japan requires not only academic qualifications, but also strong IT knowledge, Japanese language competence, professional behaviour, cultural understanding, and personal discipline.

Students are encouraged to focus seriously on their studies from the very beginning. In particular, they should aim to achieve the required Japanese language level, including JLPT/NAT N3, while maintaining good academic performance. I strongly advise students, especially those who entered after A/Ls, to pass the JLPT/NAT N3 level by the end of the third year. Achieving this level on time will greatly support students in securing employment opportunities in Japan before graduation. Any delay in reaching this language level may delay future career success.

Students who wish to work in Japan must also understand Japanese workplace culture, where respect, punctuality, teamwork, responsibility, honesty, and harmony are highly valued. Japanese employers expect graduates to demonstrate not only interest, but also proven ability, commitment, and readiness. At LNBTI, we guide our students to develop these qualities and become disciplined, globally employable professionals.

Japan is widely recognized for its high level of public discipline, social responsibility, and trust. Respect for others, care for public property, and responsible behaviour in society are considered normal expectations. Therefore, students who plan to live and work in Japan must prepare themselves to adapt to such an environment.

Professional appearance is also an important part of career readiness. Students are expected to maintain proper grooming, clean attire, neatly trimmed beards or preferably clean-shaven faces, neat hair, and a respectful appearance during lectures, official events, interviews, company visits, and activities involving external guests. These expectations are intended to help students prepare for Japanese and international workplaces while representing themselves, LNBTI, and Sri Lanka in a positive and professional manner.

This journey requires the collective support of students, staff, and parents. Together, by strengthening IT knowledge, improving Japanese language skills, developing professional behaviour, and respecting cultural differences, we can continue to make LNBTI's vision a reality.

LNBTI Welcomes Tokyo Galaxy Japanese Language School

LNBTI – Japanese IT University was pleased to welcome Ms. Midori Hori, Principal of Tokyo Galaxy Japanese Language School, during her visit to LNBTI.

During the visit, Ms. Hori engaged in a meaningful discussion with the Japanese Language lecturers at LNBTI and toured the University premises. The visit provided a valuable opportunity to exchange ideas and strengthen academic and cultural connections between the two institutions.

LNBTI appreciates Ms. Hori for taking the time to visit the University and looks forward to continued engagement in promoting Japanese language education, academic collaboration, and cross-cultural learning opportunities for students.

Breaking the Ice, Building New Connections

As part of the orientation activities for the new intake, LNBTI – Japanese IT University conducted an engaging and interactive Ice-Breaking Session to help new students get to know one another and begin building meaningful connections.

The session featured a range of group challenges, introductions, creative activities, and team-building exercises, creating an energetic and enjoyable environment for students to communicate, collaborate, and share ideas.

Through these activities, students had the opportunity to develop their confidence, communication skills, teamwork, and interpersonal connections, while forming new friendships and becoming more familiar with their peers.

The session marked a vibrant beginning to their new chapter at LNBTI, setting the stage for a rewarding and memorable university experience.

JASPER 2026 PRE-CONFERENCE WORKSHOP

As part of the JASPER Research Symposium 2026, LNBTI – Japanese IT University will conduct a Pre-Conference Workshop on 10 September 2026, providing participants with an opportunity to gain practical knowledge and hands-on experience in emerging technologies.

The workshop will feature two sessions led by distinguished Japanese academics, focusing on Robot Software Development with Python and IoT Systems. These interactive sessions will enable participants to explore practical applications, enhance their technical skills, and gain valuable insights into emerging areas of information technology.

The workshop will provide a valuable platform for participants to engage with experts from Japan, exchange knowledge, and explore potential pathways towards careers in the Japanese IT industry.

The programme will further contribute to strengthening academic and technological collaboration between Japan and Sri Lanka, in line with the objectives of JASPER 2026.

The poster for the JASPER 2026 Pre-Conference Workshop features a purple and white color scheme. At the top, the title "JASPER 2026 Pre-Conference Workshop" is displayed in a bold, black, sans-serif font. Below the title are two portraits of the speakers. The first speaker, Prof. Naruse, is shown in a dark blue suit with a pink pocket square, standing against a purple background. Below his portrait, the text reads "ROBOT SOFTWARE DEVELOPMENT WITH PYTHON", "PROF. NARUSE", and "UNIVERSITY OF AIZU, JAPAN". The second speaker, Prof. Tanaka, is shown in a dark suit with a striped tie, standing against a purple background. Below his portrait, the text reads "HANDS-ON INTRODUCTION TO IOT SYSTEMS", "PROF. TANAKA", and "KYUSHU UNIVERSITY, JAPAN". At the bottom of the poster, there is a section with the JASPER logo, the dates "09 SEP" and "10 SEP" for 2-hour sessions, and the venue "LNBTI MAIN CAMPUS". A large phone number "0742954857 / 0743344593" is prominently displayed in a white box. The website "www.lnbt.lk" and social media icons are at the very bottom.

Line-Following Robot Obstacle Competition

The LNBTI Robotics Club will organize a Line-Following Robot Obstacle Competition, providing students with an exciting opportunity to apply their knowledge and skills in robotics, programming, engineering, and problem-solving.

Participants will design and build autonomous robots capable of following a designated track while successfully navigating and overcoming various obstacles within the competition arena.

The competition will encourage students to learn, innovate, collaborate, and compete, while gaining valuable hands-on experience in robotics and autonomous systems. Prizes will be awarded to the 1st, 2nd, and 3rd place winners, while Certificates of Participation will be awarded to all participants.

The event will serve as an engaging platform for students to develop their technical abilities, creativity, and problem-solving skills through practical robotics applications.

Study IT in Sri Lanka & Work in Japan after the Degree!

Recommend Your Loved Ones Who Dream of a High-Skilled Job in Japan!
Introduce O/L & A/L Students Among Your Friends & Relatives!

REGISTRATIONS NOW OPEN - LIMITED SEATS AVAILABLE!

- O/L Students:(Students with O/L results can register)
- A/L Students: Reserve your seat in advance & register after results! Any subject combination is OK. Credit passes for Mathematics and English at the O/L required.

Entry Requirements:

- GCE O/L or A/L
- A/L students can reserve seats in advance.
- All applicants must sit for an admission test

At LNBTI, we offer:

- BSc (Hons) Software Engineering or BSc (Hons) Computing & Information Systems
- A solid IT degree & Japanese language education
- Final-year job-related tests for top Japanese companies
- Conditional Appointment Letters before graduation!
- Secure your future & start your IT career in Japan!

Contact us on WhatsApp:

For Details : 077 336 0000 / 076 800 5555

REGISTER NOW & secure your dream career in Japan!
